General vernon A. Walters
Deputy Director of Central Intelligence
Washington, D.C. 20505

Dear General Walters;

I am severely disturbed by Vice-president's Rockefeller remarks to the press re: his committee's findings. The aspersions can only alienate the confidence of the American people in the excellent work that The C.I.A. is doing.

I remember, only too well, the many sessions, of The Un-American Activities Comm., I attended in the very early 1950's, and how the left-slanted news releases destroyed it's usefulness.

I worked in Sen. Goldwater's hdqt'rs, in N.Y., and I can testify to the willful sabotage that Rockefeller administered to the good senator's Presidential campaign.

I feel that Rockefeller is dangerously ambitious, and will go to any extreme, to achieve the Presidency, and the position of "world dictator". I pleaded with Pres. Ford, "not to nominate him to the Vice-presidency."

Please, continue the excellent work, your agency has been performing, if anything, increase your activities.

You might investigate the destruction of our lovely city of Long Beach N.Y., by our City Manager Richard Bowen. He is guilty of every "crime in the book", including the Russian technique of publicly declaring me mentally unbalanced, because I opposed his actions.

He refused my suggestion that Long Beach create a Bicentennial Comm., so, our WAKE UP! AMERICA Inc. sponsored, "WE THE PEOPLE", City of Long Beach, N.Y., Bicentennial Comm.'" He is sabotaging our every effort.

(continued) June 19, 1975

We are planning, for July 4th, 1975, an old fashioned independence day picnic, and in the early evening, the beginning of a national "Mr. and Ms. Bicentennial U.S.A. Americanism contest". Each contestant will be requested to submit a short essay on, what is wrong with our government, and what should be done to improve it. Each contestant will be questioned on American history; will exhibit a talent, and will recite what he has done for his country. We hope it "catches on". Unfortunately, we have no funds, and volunteers are scarce.

We feel that our country's ills are the result of our completely material (communist) approaches to our problems, and that a return to the spiritual concepts, of our "Founding Fathers", is the only road to our return to our greatness, and the respect that we warrant, from the nations of the world.

Our slogans are:- "REVERE AMERICA".
and, "One Nation under GOD".

We pray, GOD will guide, guard, and govern, the U.I.A., in performing it's difficult duties of protecting our glorious nation, from those who seek to destroy it, from without, and WITHIN.

"Keep punching"!

Channel 67 To Sign Off On June 20

Long Island's only commercial television station, WSNL (Channel 67) will sign off on June 20, as a result of financial difficulties. WSNL, which had been in operation since November 1974, calls the move temporary.
